Summer 1

This is Our Earth
Weather
The weather in the UK

- The weather is how hot or cold, wet or dry, windy or still it is outside.
- Temperature is a measure of how hot or cold something is. We measure it using a thermometer.
- The seasons are made up of the months of the year
 - **Spring** – March, April, May
 - **Summer** – June, July, August
 - **Autumn** - September, October, November
 - **Winter** - December, January, February.
- In Spring it is often rainy and the temperature begins to get warmer.
- In Summer the sun is much stronger; the temperature is warmer than any other season.
- In Autumn it gets chillier, windier and there is often rain.
- In Winter it is often cold and frosty. It must be freezing cold to snow.
